## Description

This is an outstanding low hour Fountain 35 Lightning – Twin Step, powered by the Mercury Racing 525MPi engines through Bravo XR Drives.

The 35 Lightning is what started it all for Fountain, originally as the 10 Meter Executioner, and evolving to the twin step Lightning.

The efficiency of the steps allows this boat to run into the 90's with stock power. It is nimble and fast, with an amazing cruise speed.

The owner has just replaced all of the trim reservoirs, a full storage cover, complete service including fluids, belts and spark plugs, and has brand new headers in the boxes ready for installation.

The trailer was stripped and sandblasted to prep for new paint. New fenders were added, and the bearings and brakes are new within the past year.

If you're looking for a clean 35 Lightning with 525 power, this will check all of the boxes for you.

## Information & Features

### 2005 Mercury 525 EFI w/ XR drives (Engine 1)

- Cockpit Speakers: JL Audio

## Inside Equipment

- Electric Bilge Pump

- Marine Head

- Battery Charger

## Outside Equipment/Extras

- Cockpit Shower

- Swimming Ladder

## Manufacturer Provided Description

The Fountain 35 Lightning moves the performance bar to the next level. Twin 525 EFI's will accelerate you to mind boggling speeds in excess of 90 mph. You'll enjoy blistering mid-range punch and exceptional control on the top-end due to Fountain's Twin Step Generation III Positive Lift bottom design with the pad keel and the notched transom. Substantially reduce your purchase price by powering with twin Mercury 425 hp 496 cu.in. engines and still reach speeds over 83 mph. The 35' Lightning features a spacious cockpit with identical dimensions to the 42 and 38 Lightnings.
